

YOUNG MONOVARIETAL GRAPPA GRAPPA CABERNET

This young 100% native Cabernet Sauvignon grappa is perfect for those who desire a spirit boasting a luminous, brilliant appearance, and a fragrant, exhilarating bouquet that opens with a crisp herbaceousness and then evolves into classic notes of wild berryfruit.

The palate is seductive and intriguing, yet at the same time self-confident and clean-edged, showcasing the qualities of the Cabernet Sauvignon, exuding fine spice, black liquorice, and black pepper.

The distillation utilises a single-batch bain-marie pot-still, following the Da Ponte Method, the only system capable of preserving intact the sensory qualities of such intensely-fragrant grapes as Cabernet.

DESCRIPTION

Category: Young monovarietal grappa

Grape: Cabernet Sauvignon grown in the hills of Conegliano; made from the freshly-drained pomace still rich in must

Alcohol: 39%: "Smooth"

Distillation: Single-batch bain-marie pot-still, following the Da Ponte Method

Recommended glass: Tulip-shaped

SERVING SUGGESTIONS

Perfect sipped all by itself, for those who desire an unusually smooth grappa, but it can add an intriguing touch if added to, or follows, coffee.

PACKAGING

In a 70cl bottle, or in Metodo Da Ponte, Don Giovanni e Cassetta Noce gift boxes.
